

Are you interested in participating in research as a healthy control subject?

or

Do you have difficulties remembering due to a diagnosis of multiple sclerosis (MS) or traumatic brain injury (TBI)?

If so, you are invited to participate in a new study examining the relationship between brain activity and thinking ability in MS and TBI.

Eligibility requirements:

- ✓ Diagnosed with multiple sclerosis (MS)
- ✓ Diagnosed with traumatic brain injury (TBI)
- ✓ Not diagnosed with MS or TBI (Healthy control subjects)
- ✓ Are between the ages of 18 to 65
- ✓ Have no other neurological illness

What does it require?

This study includes computer and paper tests of your thinking ability along with an MRI scan (about 3.5 hours total). Total compensation is \$150, which covers participation along with travel reimbursement.

Study location: 1199 Pleasant Valley Way, West Orange, NJ 07052
