

MEMORY RESEARCH STUDY

Are you interested in participating in research
as a healthy control subject?

or

Do you have difficulties remembering due to a
diagnosis of multiple sclerosis (MS) or
traumatic brain injury (TBI)?

What does it require? This study includes a single visit where you will complete computer and paper tests of your thinking ability along with an MRI scan (about 3.5 hours total).

Compensation. \$150, which covers participation along with travel reimbursement.

Study Location. Kessler Foundation, 1199 Pleasant Valley Way, West Orange, NJ.

For Information, Please Contact.

Ray Ruben RRuben@kesslerfoundation.org or (973) 324– 8449

**Please include your name & telephone number.*

Principal Investigators: Joshua Sandry, Ph.D. & John DeLuca, Ph.D.
